Hello CHALKlets families and welcome to an exciting 10 weeks we have ahead of us! We are looking forward to introducing so much of what CHALK has to offer! Throughout this session you and your child will have the chance to make some fun art projects, sing silly songs, and move to music! Each day is wrapped around a theme, which you can find on the lesson plans posted in the classroom!

CHALKlets is a transitional program focused on providing special time and fun for you and your child! Parent involvement is of the utmost importance! We will provide the activities and excitement while you assist your child in moving through those activities. Be prepared to have fun and get a little messy!
