May Flowers

Welcome to Green Room! We are so excited to have you all join us.

This month it will be busy! We will start our month off by celebrating Mother's Day. Be on the lookout, for your little ones will be making a special gift using their handprints. We will also be talking about families and making a friendship tree.

For our second week, we will learn about gardens. We will plant our very own lima beans. We will place lima beans in a plastic bag with a wet paper towel. The kiddos will also do a science experiment to learn how a leaf can breathe when it's placed in water. We will also get to learn about the different parts of a flower. We will paint using real flowers!

Our third week, we will learn the differences in a grocery market and farmer's market. We will be exploring different types of fruits and vegetables. We will also have the opportunity to explore fruit and vegetable seeds using a magnifying glass. For art, we will be making our own shopping list by cutting out our favorite items from a newspaper.

For the last two weeks, we will learn about BUGS. We will learn about bumble bees, butterflies, lady bugs, and spiders. We will explore bug fossils using a magnifying glass. For art, we will create our own bug by using different shapes. For literacy, we will work on identifying uppercase letters on our bug mats. For math, we will sort bugs by size. Be on the lookout we will have real CATERPILLERS in Green Room!

Letter of the Week

5/8-5/12: Aa

5/15-5/19: Bb

5/22-5/26: Cc

5/29-6/2 Dd

Happy Birthday
